

Priority Area Discussions

Discussion questions for small groups and plenary

Molly Gilligan

Small group discussions

Priority Area A: Right to land, natural resources and biodiversity

Discussion Set-Up

- Separate into small groups
- Priority Area A: Right to land, natural resources and biodiversity
- Each group should select someone to take notes during the discussion and someone to report back to the full group
- Please record participants in each group using the provided sheets

Discussion questions

1. What data related to Priority Area A do you use in your work and for what purpose?
2. What information on Priority Area A is already being collected, and by whom?
3. What information would be valuable for your work that you currently do not have?
4. What opportunities do you see for enhancing information in these areas?

Small group discussions

Priority Area B: Access to food, energy, water and sanitation

Discussion Set-Up

- Separate into small groups
- Priority Area B: Access to food, energy, water and sanitation
- Each group should select someone to take notes during the discussion and someone to report back to the full group
- Please record participants in each group using the provided sheets

Discussion questions

1. What data related to Priority Area B do you use in your work and for what purpose?
2. What information on Priority Area B is already being collected, and by whom?
3. What information would be valuable for your work that you currently do not have?
4. What opportunities do you see for enhancing information in these areas?

Small group discussion

Priority Area C: Climate change, sustainable production and consumption, health and well-being

Priority Area D: Women in environmental decision making at all levels

Discussion Set-Up

- Separate into small groups
- Priority Area C: Climate change, sustainable consumption & production, health and well-being
- Priority Area D: Women in environmental decision making at all levels
- Each group should select someone to take notes during the discussion and someone to report back to the full group
- Please record participants in each group using the provided sheets

Questions: Priority Area C

1. What are some of the main ways men and women are impacted differently by climate change in Kenya?
2. Is data on these topics measured; if so, how?

Questions: Priority Area D

3. What is the impact of women in decision-making in the environment?
4. How can their impact in decision-making be measured?
